◆ PROFESSIONAL SUMMARY

React Native Developer and Computer Science & Engineering graduate with hands-on experience building Android and iOS applications using React Native, Expo, Firebase and REST APIs. Experienced in event management, food delivery, taxi booking, finance tracking and B2B catalog workflows, with a strong focus on clean UI, smooth navigation, form validation, debugging and performance optimization.

✦ CAREER HIGHLIGHTS

- Built production-style mobile workflows across event management, food delivery, taxi booking, finance tracking and B2B ordering domains.
- Integrated Firebase authentication, database, notifications and REST API data flows for real application features.
- Improved app usability through responsive UI, smooth navigation, form validation, debugging and performance-focused fixes.

▣ TECHNICAL SKILLS

- **Mobile:** React Native, Expo, Android Applications, iOS Applications, Cross-platform Development, Responsive UI
- **Backend / Cloud:** Firebase Authentication, Firebase Database, Notifications, Real-time Data, REST API Integration
- **Programming:** JavaScript, HTML, CSS, C Programming
- **Tools:** Android Studio, Visual Studio Code, Cursor.ai, GitHub
- **Strengths:** Debugging, Problem Solving, Communication, Collaboration, Time Management, Leadership

▤ PROFESSIONAL EXPERIENCE

React Native Developer | **Wowsly** | *Nov 2025 - Present*

- Develop and maintain a React Native event-management app across Android and iOS.
- Build event creation, ticket booking, QR-code entry and attendee management flows.
- Integrate APIs, implement form validation and refine UI/UX for smoother, reliable performance.

React Native Developer | **Illusio Designs** | *May 2025 - Sep 2025*

- Designed responsive cross-platform mobile apps using React Native with smooth navigation and clean UI.
- Integrated Firebase authentication, database and notifications for scalable app workflows.
- Collaborated with team members on feature delivery, debugging and performance improvements.

Mobile App Development Intern | **Grafizen** | *Jul 2024 - Sep 2024*

- Built practical mobile app features, refined UI layouts and strengthened React Native implementation skills.

◆ SELECTED PROJECTS

- **Amrut - B2B Gold Manufacturing Platform:** Built role-based catalog access, time-bound client access and streamlined jewelry ordering workflows.
- **Premvati - Food Delivery App:** Developed mobile ordering, order tracking and serving option flows for fast food, sweets and snacks.
- **Expense Tracker:** Created secure login, add/view transactions and real-time expense tracking with Firebase integration.
- **YBGO Taxi App:** Developed a smooth taxi booking experience focused on simple user flow and app usability.
- **Other Projects:** Option Game, Tic Tac Toe using React Native/Expo, QR-based Gujarat Police Feedback System and Amazon Clone.

○ EDUCATION, CERTIFICATION & LANGUAGES

- ▶ **Education:** B.E. Computer Science & Engineering - SLTIET | Oct 2021 - May 2025 | CGPA: 8.58
- ▶ **Certification:** React Native Certification - Tutedude | React Native, Expo, Firebase Authentication, real-time database and local notifications
- ▶ **Languages:** English, Hindi, Gujarati
