

AMATULLAH BHARMAL

React Native Developer | Android & iOS Mobile App Developer

Rajkot, Gujarat, India | +91 6355894943 | amatullahbarmal3@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

React Native Developer and Computer Science & Engineering graduate experienced in building cross-platform Android and iOS applications. Hands-on with React Native, Expo, Firebase, API integration, authentication, database, notifications, QR-code flows, responsive UI, form validation, debugging, and performance improvements. Passionate about creating scalable, user-friendly mobile solutions.

CORE TECHNICAL SKILLS

Mobile Development: React Native, Expo, Android App Development, iOS App Development, JavaScript

Firebase & Integrations: Firebase Authentication, Firebase Database, Notifications, REST/API Integration, Form Validation

UI & Tools: Responsive UI, Smooth Navigation, UI/UX Improvements, Android Studio, Visual Studio Code, Cursor.ai

Professional Strengths: Debugging, Problem-Solving, Communication, Time Management, Leadership, Collaboration

PROFESSIONAL EXPERIENCE

React Native Developer | [Wowsly](#) Nov 2025 - Present

Develop and maintain a React Native event-management mobile app for Android and iOS. Implemented event creation, ticket booking, QR-code based entry, attendee management, API integration, form validation, UI/UX improvements, and performance optimization.

React Native Developer | [Illusio Designs](#) May 2025 - Sep 2025

Designed responsive cross-platform mobile applications using React Native with smooth navigation and clean UI screens. Integrated Firebase Authentication, Database, and Notifications while collaborating with teams to deliver scalable app features.

Mobile Application Development Intern | [Grafizen](#) Jul 2024 - Sep 2024

Completed hands-on mobile app development internship focused on real-world app screens, features, and debugging workflows.

FEATURED PROJECTS

Amrut - B2B Gold Manufacturing Platform: Built a specialized B2B app with role-based catalog access, time-bound client access, category-based ordering, and streamlined order management.

Premvati - Food Delivery App: Developed a food delivery app with online ordering, order tracking, and serving options for fast food, sweets, and snacks.

Expense Tracker: Created a personal finance app with secure login, real-time expense tracking, transaction management, and Firebase integration.

YBGO - Taxi Booking App: Developed a taxi booking application focused on a simple, smooth, and user-friendly ride booking flow.

Other Projects: QR-based Gujarat Police Feedback System, Option Game for option-trading learning, Tic Tac Toe using React Native/Expo, and Amazon Clone using HTML/CSS.

EDUCATION, CERTIFICATION & LANGUAGES

B.E. Computer Science and Engineering: SLTIET | Oct 2021 - May 2025 | CGPA: 8.58

React Native Certification: Tutedude | 3-month hands-on program covering React Native, Expo, Firebase, real-time database, and local notifications.

Languages: English, Hindi, Gujarati
